Dear Jason,

**RE:APPLICATION FOR AN INTERNSHIP AT WP ENGINE**
I am Christabel Lona Atieno, an entry level software developer.I am writing to apply for an internship at WP Engine.

WP Engine's role to empower our customers to win online through innovative tech solutions intrigues me.I admire WP Engine's combination of tech innovation and an award-winning team of WordPress experts that have made the brand renown.I believe an internship within the development team will be instrumental in challenging my growth and experience in the tech industry within an exciting space.This will help me refine and practice my skills,while contributing to WP Engines' goal continuously delivering the best tools, technologies.

I am currently working on a project that seeks to reduce post-harvest losses incurred by small-scale farmers in Kenya.The solution aims to mitigate losses by incorporating technology and help increase food security.

I eagerly look forward to your feedback.

Sincerely,
Christabel Lona.
